Senior Full Stack Developer

Full stack developer with 10+ years of experience developing and designing web applications. Proficient in various programming languages and frameworks, including Java, JavaScript, Angular, and Spring Boot. Robust front-end and back-end development skills, focusing on creating intuitive and user-friendly interfaces. Experienced in agile environments, collaborating with cross-functional teams, and overseeing code reviews.

- ✓ Extensive experience in developing Rest API and using Java and Micro-services patterns
- ✓ Experience in responsive web development using HTML, CSS, JavaScript, TypeScript, Angular, Bootstrap
- ✓ Extensive experience in developing solutions against OWASP top cyber security vulnerabilities
- ✓ Extensive experience in SiteMinder, OAuth and OpenID authentication and authorization model
- ✓ Proven track record in various agile methodologies like Test Driven Development, and SCRUM
- ✓ Adept in designing and develop application using Spring, Struts, Java/JEE-based and Angular frameworks

TECH STACK

- Programming Languages: Java, JavaScript, Typescript & Python
- Front-End skills: HTML5, CSS3, Angular, Bootstrap & Angular Material
- Microservices: Spring Boot, Spring Cloud Services (Config server, Service Registry and Circuit Breaker Patterns)
- Website Analytical Tools: Google Analytics with tagging

CERTIFICATIONS

- AZ-204: Microsoft Certified: Azure Developer Associate
- AZ-900: Microsoft Certified: Azure Fundamentals
- AI-900: Microsoft Certified: Azure Artificial Intelligence Fundamentals

TOP SKILLS

- Back-End Development
- Front-End Development
- User Experience Design
- User Interface
- Microservices Architecture
- Web Applications Development
- Web Design
- Reusable UI Component Designing

SOFT SKILLS

- Communications
- Analytical Thinking
- Team Management
- Creative Thinking

PROJECT EXPERIENCE

Specialist Full Stack Developer | Bank of New York Mellon Corp

Aug 2019 - Ongoing

- Designing websites, portals and large-scale web applications for various clients
- Working on both the back-end and front-end aspects of the development
- Collaborating with UX team members to create user-friendly and intuitive designs, site interactions and user experiences
- Developing RESTful microservices using Spring Cloud and Docker Container patterns
- Translating concepts into wireframes, mock-ups, and prototypes

Technical Project Lead | Inautix Technologies

Aug 2011 - Aug 2019

- Worked with a team of developers to ensure that projects were completed efficiently and on schedule
- Worked on modernizing a monolithic application by breaking it down into smaller microservices using Spring Boot.
- Contributed to the design of reusable UI components using Angular, and helped make the application more efficient by implementing asynchronous REST API calls.
- As part of a Scrum team, participated in code reviews and played a role in planning system updates.

EDUCATION

- Bachelor of Engineering - Mechanical Engineering, Karpagam Academy of Higher Education, Coimbatore (2011)
